Market share is the percentage of a market (defined in terms of either units or revenue) accounted for by a specific entity. In a survey of nearly 200 senior marketing managers, 67% responded that they found the revenue- "dollar market share" metric very useful, while 61% found "unit market share" very useful.

During my 20-plus years in the surety industry, I have been asked one question more than any other: "What is my bonding capacity and how is it determined?" Unfortunately, this simple question is the most difficult one for a surety agent to answer and merits a clear explanation. Bonding capacity is the maximum amount of surety credit a surety company will provide to a contractor.
