1. Introduction. Road vehicle emissions are one of the most important sources of human exposure to air pollution. Depending on pollutant, mode of travel, travel distance etcetera, the exposure while commuting during rush hours along densely trafficked corridors may constitute a substantial fraction of the total daily exposure (e.g. Hänninen et al., 2004, Barrett et al., 2008, Dons et al., 2012).

1. INTRODUCTION - A transistor is a small electronic device that can cause changes in a large electrical output signal by small changes in a small input signal. That is, a weak input signal can be amplified (made stronger) by a transistor. For example, very weak radio signals in the air can be picked up by a wire antenna and processed by transistor amplifiers until they are strong enough to be ...

iTextSharp does it pretty cleanly and is open source. Also, it has a very good accompanying book by the author which I recommend if you end up doing more interesting things like managing forms. For normal usage, there are plenty resources on mailing lists and newsgroups for samples of how to do common things. EDIT: as alluded to in @Chirag's comment, @Darin's answer has code that definitely ...
