Resource for Development and Delivery of Training to Workers

Training and development involves improving the effectiveness of organizations and the individuals and teams within them. Training may be viewed as related to immediate changes in organizational effectiveness via organized instruction, while development is related to the progress of longer-term organizational and employee goals. While training and development technically have differing ...

IMF Institute for Capacity Development | 2018 Training Catalog

Training program evaluation is a continual and systematic process of assessing the value or potential value of a training program. Results of the evaluation are used to guide decision-making around various components of the training (e.g. instructional design, delivery, results) and its overall continuation, modification, or elimination.
